Experience

Web Developer
[adult swim], WarnerMedia
📅 August '16 – Present

Led development on multiple web projects across the [adult swim] media catalogue (i.e. shows, comics, podcasts, live streams, and games). Experience working on a live streaming platform with real time chat. Front-End and Back-End Consultation on one-off projects and brand-sponsored campaigns.

Bioinformatics Research Assistant
University of Miami Department of Psychiatry
📅 May '15 – January '16

Used R for statistical data visualization. Brain tissue from the neocortical region of the brain was analyzed and sequenced in order to identify genes that may be linked to the development of autism. A paper was later published in *Molecular Neurobiology* (link).

Student Programmer
University of Miami Neuman Alumni Center
📅 October '14 – January '16

Maintained and updated the University of Miami's Advancement Training Website.

Web Development/Design Intern
3Eleven Media
📅 June '15 – August '15

Worked on client websites and in-house web applications with a team of developers and digital artists.
